### **May Meeting**

We are pleased that once again this year the May HCC meeting will feature a presentation by local photographer and author Joseph Meehan. The meeting will be at 7:00 at Noble Horizons in Salisbury, CT.

*Expressions in Fog -- Joseph Meehan*

*Fog in its various manifestations has the unique ability to transform the most mundane of settings into something that can convey a whole range of emotional impressions. For example, producing a sense of mystery and even apprehension as well as visually isolating different parts of a scene.*

*In this one-hour presentation, Joseph Meehan will present examples of how different types of fog can be exploited in landscape compositions using many examples from the Northwest Corner. Much of the material will be drawn from his latest book, "Photographing the Elements" (Focal Press) and the article, "Joseph Meehan, Fog Meister" in the new interactive tablet magazine: Photographers (<http://www.photographersi.com>).*

### **NECCC Competition Results**

The Spring 2012 Electronic Interclub Competition report has been posted. Congratulations to Lazlo Gyorsok and Bert Schmitz who both received honorable mentions for their photographs. You can go to the New England Camera Club Council (NECCC) website, [http://www.neccc.org/New\\_Outline\\_4.htm](http://www.neccc.org/New_Outline_4.htm), to find our Housatonic scores

in the Class B competition section. You can also follow the links to view all the winning and Honorable Mention photos.

In addition to the Spring scores, the cumulative results for the season are also posted. This year we did quite well in the Pictorial category, placing in the top ten. Congratulations and thank you to all the photographers who participated during the year.
